

We need your help!

Since 2004, Grassroots Citizens of Wisconsin has been fostering community dialogue and participation between progressive groups and individuals throughout southwest Wisconsin. Our network has now grown to include organizations in Iowa, Lafayette, Sauk, Grant, Green and Richland Counties.

It's been four years since we asked for your financial support. But it's now time to request your help.

These days we all get dozens of requests for funds from candidates and causes all across the country. But we hope that you are able to contribute a small amount here at home, to help Grassroots continue to bring together widely divergent segments of the population, to get people talking, understanding and solving problems together.

Contributions help to fund our website (www.grassrootswi.org) as well as the Grassroots Gazette (our regular email newsletter) and selected programs with our partner groups, which include:

- MultiCultural Outreach Program (MCOP)
- Sustain Iowa County
- The Grassroots Health Care Task Force
- Action Iowa County
- Grassroots Citizens for Peace & Justice
- The River Valley DAWN (Driftless Area Women's Network)
- Indivisible Green County
- The Driftless Defenders
- The Iowa County Citizens' Climate Lobby (CCL)

Please consider a donation of any size!
